Office in Newport one door south of E. F. Newton's Grocery store, Thames street, Office in Boston at No. 7 State street. Feb. 14, 1846.

It is probably, almost without a parallel in having, during a trial of nearly twenty years, fully maintained the high reputation which it has acquired for Consumptive complaints and all diseases of the Lungs, Throat and Chest. It has been used probably with greater success than any other article known, and many physicians who have had an opportunity of witnessing its highly salutary effects, do not hesitate to recommend it as a safe, convenient, and very efficacious medicine, equal if not superior to any other prescription for the above complaints within their knowledge, and one which has seldom disappointed the reasonable expectations of those who have used it.

The proprietors cannot descend to the present unflattering style of advertising similar articles. It is too well known to require any such course, and they would merely refer those who wish for further confirmation of its superiority to those who have used it, and to the numerous certificates of Physicians and others, attached to each bottle. The Vegetable Pulmonary Balsam was for many years the only article known as PULMONARY BALSAM. Its great celebrity has given rise to a great many spurious articles, which, by partially assuming the name of the genuine, and being put up so as to resemble it as nearly as possible, are often foisted upon the public for the true article. Among these are "Carter's Compound Pulmonary Balsam," "American Pulmonary Balsam," "Vegetable Pulmonary Syrup," "Pulmonary Balsam," "Indian Pulmonary Balsam," &c. Beware of all of them. Enquire for the article by its whole name, the **VEGETABLE PULMONARY BALSAM**, and be sure to get the true article, prepared by **REED, VINCE & CUTLER**, Wholesale Druggists, 54 Chatham Street, Boston, and see that it has the written signature of **Wm. J. Reed, Cutter**, upon a yellow label on the blue envelope. Each bottle and seal is stamped "Vegetable Pulmonary Balsam." For sale by Druggists and Country Merchants generally. For sale in Newport by **R. J. TAYLOR**. November 1, 1845.

POETRY.

To the First Bird of Spring.

Ye come, ye come, bright warbling things,

And joy is in your song;

Ye bear upon your dewy wings

The Spring's first breath along.

Ye herald in the happy morn,

That is the birth of flowers;

Ye tell that winter's chills have gone,

Its snows and icy towers;

Ye hide the earth in its carpet worn

In Nature's Matchless loom;

The warp of many a grassy leaf,

Two wool from flower's bloom.

Ye bid the naked branches dress

In all their proud array.

And all things don their loveliness

To welcome back the day.

Ye bid the icy fetters fall

From many a prisoned rill,

And onward joyful at your call

They gambol down the hill.

All nature wakes from sleep; the cloud

Shades not the sun's bright ray;

No more the storm-winds howling loud

Disturb the zephyr's lay.

Pass on, pass on to other land,

Ye birds of merry note;

Sing there of Spring, ye starry band,

From every tuneful throat.

And gladden every heart that hears

Your message from above;

Pass on, and dry up winter's tears,

Sweet harbingers of love.

A WONDERFUL WOMAN.

JEMIMAH WILKINSON, the American

Prophetess, was born in Rhode Island,

of respectable parentage, in 1756. She

inherited the peculiarities of her ances-

ters, and at the age of 24 was very

grave, contemplative, absent, and some-

what eccentric. At this time, (1780.)

after a few days' illness, she had an

unusual appearance of fainting, in

which she was supposed to be dead.—

Her pulse ceased, breathing stopped, and

nothing about her indicated that vitality

remained, but a slight warmth in the

region of the heart. After spending two

days and nights to resuscitate her, her

medical attendants pronounced her to be

dead.

Both on account of the popularity of

the deceased, and from a desire to learn

more particulars of her singular death,

the church was thronged at an early

hour to attend funeral services. The as-

sembly, in the midst of their grief and

wonder, were thrilled with horror at the

sound of three distinct raps from the

coffin, which, echoing from the roof and

through the aisles, electrified them as

though the clarion note of the last trump

had announced the awful judgement of

God.

The short lid was raised, and Jemimah

extending her hand, was assisted from

the coffin. She spoke feebly, as follows:

"My former self has died, and passed

into the land of spirits; and this body

which you see, is a spiritual one; it is

a new proof of the doctrine of the resur-

rection. I have been invested with the

power of Jesus, until his second advent;

and am commanded to collect a church;

and they shall have a part in the first

resurrection."

Her astounding disclosures, fervent

piety, vivid imagination, and original

conceptions, attracted multitudes to her

public meetings. Already some hun-

dreds avowed her doctrines, and hundreds

more would have allied with the faithful

had not she adopted the principal that

they should "neither marry, nor be given

in marriage," and those who had wives

should become as those who had none.

And, like the apostles, in pecuniary con-

cerns "they had all things in common."

Acting on the principal that "a prophet

is not without honour, save in his own

country," and finding Rhode Island a

poverty stricken region, the land cold and

the climate unpropitious, she applied to

the divinity within her for direction; and

the answer was, "thou shalt go into a

strange country, and to a people of a

strange language; but fear not; for lo!

the angel (alias Jemimah Wilkinson) of

his presence shall go with thee."

About this period, Western New York

was purchased from the Senecas, by Ol-

iver Parish, and offered a good prospect

of a quiet and lucrative situation to Jem-

imah and her tribe. They made a pur-

chase of land six miles square, for £500,

and bid farewell to their kindred and

made the journey of five hundred miles,

through the almost pathless forest, arrived

in safety at their future home, which she

called Jerusalem. She was informed by

Parish, that the Indians had an inveterate

hatred of women who made any preten-

sions to prophecy, or art, or divination;

and to satisfy them, he asked whether she

was a man or a woman.

"As to that, young man," said she "I

am neither, being the effulgence of divini-

ty, and at the head of a kingdom whose

subjects neither marry nor are given in

Late Foreign Intelligence.

Arrival of the Great Western.

Seven Days Later from ENGLAND.
The steamer Great Western, Capt. Mathews, arrived at New York on Tuesday evening bringing London papers to the 9th and Liverpool to the 10th inclusive.

Commercial matters wear an improved aspect. Affairs are still sufficiently bad; but, comparatively speaking, not so much as they were by the last arrival.

The Tariff is suspended in mid-air, but, pending its fate, more advantage is being taken of the Treasury order for liberating goods from bond on payment of the reduced duties.

Three months have nearly elapsed since the Tariff was introduced, and the measure still lingers in the House of Commons.

There has been a somewhat serious failure this week in Liverpool, and rumors touching the stability of other firms abound. The firm in question, Messrs. Carno & Talo, are extensive merchants in the Russian Trade. Their liabilities are said to exceed half a million of dollars. One of the jointstock banks which suffered seriously by a large failure some six weeks ago, are the unlucky creditors of the house to a considerable amount.

The American provision trade has partaken of the facilities which the Treasury order affords, considerable supplies of beef and provisions have been released from bond under the low duties, and are finding their way into general consumption.

Discussions continue as to how the Tariff will fare in the Lords. The opinions of some 300 members of that House are ascertained, it is said, and they are nearly balanced; but the views of some 50 more are oscillating. Upon these the fate of the measure and of the Government depends.

Parliament had adjourned for the Easter holidays.

The British Corn trade continues dull, and prices are 8s. lower than at the beginning of the year.

Prayers were to be offered up on the 12th inst. in all the Anglican Churches throughout Great Britain for the success of their arms against the Sikhs, and a form of prayer has been composed by the Archbishop of Canterbury thanking the Almighty for the recent victories on the Sutlej.

M. Guizot, it is said, has applied to Lord Aberdeen proposing to have a consul for each nation at Cracow, in order to watch the proceedings of the three continental powers, in regard to any encroachment on the liberties of that republic.

Now, that the war in India is decided, more attention, but the speeches of Mr. Calhoun, Mr. Haywood, and others, had convinced the British Public that our intentions were peaceable.

The Polish insurrection is entirely crushed. The leaders were being imprisoned in all quarters. Potocki, one of the leaders of the late revolt has been condemned to death, and executed at Siedlce.

A series of intrigues at Madrid, about which much was said for some time and apparently little known, resulted on the 4th inst. in the resignation of General Narvaez, and instantly the whole Spanish Ministry. M. Isturiz was appointed President of the Council and Minister of Foreign Affairs; M. Armero, Minister of Marine; M. Mon, Minister of Finance, and M. Egana remained as Minister of Justice.

The Naval Committee of the French Chamber of Deputies, to whom the bill for the increase of the Navy was referred have made a report founded on the principles urged in the pamphlet of the Prince de Joinville, and asking for 73,000,000 of francs, (\$14,600,000) "to place the Navy in its normal state." This is a reduction from the estimates of the government. The Committee propose to make the effective force of the Navy consist of 35 ships of the line, of which 20 are to be afloat and 15 upon the stocks; 55 frigates, 40 afloat and 15 upon the stocks; 130 schooners and brigs, all afloat; and 16 transport ships; total 231 vessels. They also in accordance with the project of the Government, fix the number of steamers at 100, with a force of 28,800 horses, and propose to add a steam force of 3,800 horse power, to be applied upon four ships of the line, four frigates, and four schooners; and a steam force of 800 horse power for two floating batteries, destined to defend the entrance of rivers.

The Cold Spring Iron Works at Norwich, Conn., were entirely consumed by fire on Thursday night. The machinery is not so badly injured but that it may be used by repairing. Insured \$7,500; 5,000 by the Aina at Hartford and 2,500 in New Jersey. A large iron safe in the building proved not to be a safe; all the books and papers, and everything in it, was entirely destroyed.

Curious Libel Case.—A tailor, named Rykewy, was arrested in New York on Tuesday, at the suit of a girl 18 years of age, named Wells, who charges him with libel, for having a dreadful likeness of her, self painted on a transparent window shade, which he uses to keep the sun out of his attic parlor, in Greenwich street. The tailor was held to bail.

29th CONGRESS.

First Session.

THURSDAY, April 23, 1846.

SENATE.—A message was received from the President.

Mr. Berrien, in behalf of the committee of conference on the part of the Senate, made a report recommending that both Houses recede from their amendments, and adopt the resolution in the following form:

"With a view therefore, that steps be taken for the abrogation of the said convention of the 6th of August, 1827, in the mode prescribed in its second article and that the attention of the governments of both countries may be more earnestly and immediately directed to the adoption of all proper measures for a speedy and amicable adjustment of the difficulties and disputes in respect to said territory—

Resolved, That the President of the United States be, and he is hereby authorized, at his discretion, to give to the British government the notice required by its said second article for the abrogation of the said convention of the 6th of Aug. 1827.

The question upon the acceptance of—42 to 10. The Nays were—Messrs. Allen, Atchinson, Breese, Bright, Cass, Dickinson, Fairfield, Jenness, Semple and Westcott.

The French Spoliation bill was further discussed by Mr. Clayton, in continuation of his remarks on the preceding day in support of the rights of the claimants.

HOUSE.—Mr. C. J. Ingersoll from the Committee of Conference, announced that the committee had unanimously agreed to a report, the particulars of which would be communicated in a message from the Senate.

The bill to establish the Smithsonian Institute was discussed by Mr. Marsh in committee of the whole. Mr. Morse of Ka. and Mr. Owen also made some remarks.

A message from the Senate was then received, announcing that the Senate had concurred in the report of the committee of conference on the Oregon notice.

After the reading of the report the previous question was moved and carried, no debate being allowed, and the report was concurred in, yeas 143, nays 45. The House then adjourned.

FRIDAY, April 24, 1846.

SENATE.—The Senate was not in session to-day.

HOUSE.—The Canal bill, which has been under consideration for some time, passed as amended, with a proviso that no tax is to be levied for licence or hospital money.

The bill making appropriations for the Post Office Department, for the year ending June 30, 1847, was discussed in Committee of the Whole, during the re-establishment of Foreign naval Steamers.

SATURDAY, April 25, 1846.

SENATE.—The Senate was not in session.

HOUSE.—Mr. McKay moved that the House go into Committee of the Whole, and take up the Bill making appropriations for the deficiencies in the general appropriations from last year, with the Senate's amendment. The yeas and nays were called, and Mr. McKay's motion was lost—yeas 74, nays 75.

The House then proceeded to take up the bills on the private calendar. After acting on several bills. Some were agreed to, others negatived, and then the Committee rose, and the House adjourned.

MONDAY, April 27, 1846.

SENATE.—Mr. Pearce, from the committee on the Library, reported a joint resolution authorizing the employment of Hiram Powers to execute certain statues for the United States, which was read twice and ordered to be printed, together with a report accompanying it.

At an early hour the Senate took up the special order, and Mr. Dix made a long speech in reply to Mr. J. M. Clayton and in opposition to the bill to provide for the settlement of claims for French spoliation prior to 1800.

HOUSE.—Mr. Ingersoll made a personal explanation in which he reiterated the charges he had before made against Mr. Webster, of unlawfully using the secret service fund; of misapplying said fund to corrupt the party press; and of leaving the Department of State a defaulter to said fund.

Mr. Ingersoll said he had found the papers on which these charges were made in searching the archives of the State Department, as he had a right to do as chairman of foreign affairs, for other information, and had moved a call upon the President for the papers in order that the charges might be proved.

He then read from some memoranda which he had made, and asserted that Mr. Webster had in the first twelve months of his administration of the State Department drawn from the secret service fund, which was properly in the custody of the disbursing agent of the Department, the sum of \$15,000.

That this amount was drawn on orders payable to himself, and there was proof in the Department that the President did not sanction it.

He further said that Mr. Webster returned \$5,000 of this money on the 23d of June, 1842; 4,500 of it was settled by a President's certificate in July 1842; and certain other allowances and repayments reduced the amount to about \$2,-

300, in which sum he was a defaulter when he left the office, and he did not finally settle the account until within ten days of the inauguration of Mr. Polk.

Mr. Ashmun replied and reviewed the past history of Mr. Ingersoll, showing that he had been the trader and villifier of some of the best men in the country, and among others of Mr. Richard Stockton, of New Jersey.

The scurrilous which he got on that occasion he thought would have deterred him from attempting the same thing again.

He then alluded to the conduct of Mr. Ingersoll while district attorney for the Eastern District of Pennsylvania, and said that General Jackson had dismissed him from that office for mal practices, or retention of public funds.

That he was a defaulter when he left the office, and that it was two years after a judgement had been obtained against him before he paid over the amount.

Mr. J. R. Ingersoll here rose and said that he had taken no part in this unpleasant altercation from motives of delicacy, but he now felt it his duty, as he had acted as counsel for his brother in the suit brought by the United States, to say that his whole conduct as district attorney had been highly honorable, and that he had repeatedly endeavored to get a settlement with the government, and at last only succeeded by withholding some public money in his hands to force a suit to be brought against him.

Mr. Ashmun said he appreciated every thing coming from the gentleman from Pennsylvania, (Mr. J. Ingersoll) and had no doubt that the opinion he had expressed of his brother's conduct was one which he really entertained.

But he must place the facts before the House, and the members could then judge for themselves, unbiassed by personal relationship. As to the charges against Mr. Webster he pronounced them entirely false, and said that Mr. Tyler had borne testimony that no money had been drawn from the secret service fund without his express authority.

Mr. Schenck moved that a committee of five be appointed to ascertain in what manner Mr. Ingersoll has become possessed of information which the President has said could not be communicated to the House.

The resolution was amended so as to direct the appointment of an additional committee, with power to send for persons and papers, to investigate the charges made by Mr. Ingersoll against Mr. Webster, with a view to the impeachment of the latter if the charges should be proved; and as amended it was adopted without a division.

The House refused to adopt a resolution to terminate the debate on the Smithsonian bill in two hours after it shall have been taken up in committee of the whole, and then adjourned.

TUESDAY, April 28, 1846.

SENATE.—Mr. Miller presented the Resolutions of the New Jersey Legislature in favor of the Tariff and of a Light House on Tucker's Beach.

Mr. Jarnagin gave notice of a Joint Resolution authorizing the appointment of a Board to adjudicate upon the claims of our citizens against Mexico.

HOUSE.—The Speaker announced the Select Committee on Mr. Schenck's resolution, to inquire how Mr. Ingersoll obtained possession of the papers on which he had founded his late charges against Mr. Webster. The Committee consists of Messrs. Schenck, Dobbin, McIlvaine, Stanton and Rockwell.

The committee to inquire into the charges brought against Mr. Webster, was also announced, as follows:—Messrs. Pettit, Vinton, Davis of Miss., King, of Mass., and Wilmot.

The Smithsonian bill was discussed by Messrs. Sims, J. Q. Adams, Johnson, of Tenn., Thurman and Rathbun.

It is reported that the President yesterday gave Mr. Packenham the 'Notice' of the termination of the Joint Occupancy of Oregon.

WEDNESDAY, April 29, 1846

SENATE.—A joint resolution in regard to claims of citizens of the United States upon Mexico was introduced, on leave, by Mr. Jarnagin. Mr. J. said he did not intend to ask for the consideration of the resolution for some days.

The preamble to this resolution sets forth the repeated outrages, permitted by Mexico, upon the persons and property of our citizens, through a long series of years: the repeated endeavors we had made, in a friendly manner, to obtain redress; the refusal of Mexico to pay her acknowledged obligations; the recent rejection of our minister, and of every friendly overture, which leaves to our government no alternative but to make a peremptory demand for settlement.

The committee on Library was instructed to inquire into the expediency of distributing the copies of the American Archives belonging to the government among the Historical Societies and Universities of the country.

The bill granting alternate sections of the Public Domain to aid in the completion of certain works of Internal Improvement in Michigan was taken up, and gave rise to a debate in which Messrs. Calhoun, Niles, Cass, Breese, Westcott, Archer, J. M. Clayton, Benton, Huntington, J. Clayton, and others, took part, and after slight amendment was passed—yeas 26, nays 11.

HOUSE.—The Speaker announced the bill to establish the Smithsonian Institution to be the first business in order.

The House then went into a Committee of the Whole, Mr. Bart of S. C., in the chair, and took up said bill.

Mr. Hamlin, of Me., addressed the Committee in favor of the bill and, in opposition to the substitute offered by Mr. Adams. He had no doubt about the constitutional power of Congress to accept the trust, and he hoped the present opportunity would not be suffered to pass without taking some steps to carry into effect the expressed design of the testator. Mr. H. contended that the money should properly be considered in the treasury, and it could not be rightfully any where else. He suggested some modification of the bill, but would support any measure that would give a start to the noble design of Mr. Smithson.

A running debate was kept up on several amendments proposed, in which Messrs. Wood, of N. Y., Giles, of Md., and Wick, of Ia., took part.

The hour having expired, the Committee proceeded to vote upon the various amendments which had been offered to the bill, and after consuming three hours in rejecting the most of them, finally adopted a substitute for the original bill, which was reported to the House and finally passed by a vote of 85 to 76.

By the Halls.

The amount of the lumber trade in Georgia is \$2,420,100, and equals one-third of the entire exports of the State, including the principal staples, cotton and rice; and the labor expended is equal to that which is required to produce from 75,000 to 80,000 bales of cotton. The Georgia pine timber is of a very superior quality, and is in much request.

Great Longevity.—It is stated in the Fayetteville Observer that a Mr. William Pridden died lately in Bladen County, N. C., in the one hundred and twenty-fourth year of his age. He was in the Army of the Revolution, and served through it as a volunteer, though then an old man.—He has left great grand children over forty years of age.

The Eclipse of the Sun on Saturday took place as predicted by the almanac makers, as thousands in this vicinity can testify, notwithstanding the remark in a New York paper of Saturday evening, that it had been "put off on account of the weather." In this vicinity the sky was bright, but the air cool and searching. The eclipse came on at the precise time predicted by the astronomers, and a favorable opportunity was afforded to note its whole progress.—N. B. Mercury.

As a party of young ladies were taking a walk, for the purpose of viewing the Falls, near Watertown, one of their number, named Frances Reed, an adopted daughter of Mr. Peter Hawk, of that town having ventured too near the edge, became dizzy it is supposed, and falling over the steep embankment was instantly hurled away by the current and drowned. The body had not been recovered at last accounts.

Unfortunate Occurrence.—We understand that on Friday evening last a dispute arose between two sons of Mr. L. Lofton, when Samuel struck his brother across the head, fracturing his skull in such a manner as to cause his death in a few hours. They were both young men.—Tenn. Dem., April 16.

Handsome Bequest.—The Imperial, published at Louisville, Ky., says:—"There is a gentleman in this city, in good circumstances, who received news a few days since that an estate worth \$3,000,000, had lately been left to him in Ireland. An eminent attorney is about to visit that country, to get the titles, &c."

Costlier than Gold.—The new article, "Aconite," which chemists make from the "Aconitum Nesselius," or Wolf's Bane, far exceeds in value any other artificial substance ever made. The Philadelphia North American says that 12 grains of the article have lately been received as a large importation, by Mr. Patterson, apothecary of that place, for which he paid fifteen dollars in New York. At that rate, an ounce would cost six hundred dollars; a pound nine thousand six hundred dollars; and a ton would be worth no less a sum than twenty one million five hundred and four thousand dollars.

The Temple at Nauvoo.—We are gratified to learn that there is a prospect of converting the Temple, recently erected at Nauvoo by the Mormons, to a useful and most charitable purpose. A wealthy gentleman from the South arrived here a few days since, en route to purchase the Temple, if it can be bought for a reasonable price. His object we understand, is to convert the Temple into an asylum for destitute widows and females, and to purchase lands and town lots, and endow it out of the rents of them. The scheme is not only a magnificent one, but is conceived in a spirit of liberality and munificence which should hand the benefactor's name to the latest posterity. The author of this liberal proposition, we understand, is a bachelor, far advanced in life. If he is successful in his project, he will contribute much to the improvement and development of that section of our country. We hope for the cause of humanity, that he may be successful.—St. Louis Repub. 16th.

Oregon Steamer.—Half a century ago had as large a vessel as the Oregon run on a ledge of rocks in Hurlgate, she would have been abandoned an entire wreck, but science has overcome almost every difficulty.

Late from the Army.

The U. S. Steamer Col. Harney brings dates to the 16th inst. from Brazos Santiago. Gen. Taylor took up his position on the 28th ult. directly opposite Matamoras, and within reach of the Mexican batteries. Utterly disregarding these, he proceeded to plant four 18 pounders, so that at any moment he could batter down the city at pleasure.

Thus affairs remained till the 11th inst. when Gen. Ampudia arrived at Matamoras. The following day Gen. Ampudia sent a written notice to Gen. Taylor requiring him to retire at once to the left bank of the Nueces, and insinuating to him that his persistence in maintaining his position would be deemed an overt act of hostility. To this Gen. Taylor replied substantially that he had received orders from the President of the United States to take up his position on the Rio Grande, and to see that no encroachment was made upon our Territory. That he should obey his orders, and repel any hostile attempt to cross the river. At the same time he assured the Mexican that he had no hostile designs upon the people; that they might remain in the undisturbed enjoyment of their property and rights; and that his sole business was to resist aggression.

Gen. Taylor, however, thinking it possible that Ampudia might attempt hostilities, changed his position somewhat on the 12th inst., and thereby withdrew his army beyond the reach of the Mexican batteries, he still commanding the town with his 18 pounders and the only practicable fords. At the same time, he chose to regard Ampudia's letter as so far hostile, that he directed the commandant of the force at Brazos Santiago to act as in case of war, and he gave a verbal intimation to the same effect to the naval officer in command at that station. He particularly enjoined upon the latter to seize vessels expected in the Rio Grande with supplies for the Mexican forces at Matamoras. Both these notices would appear to be rather precautionary measures than intended to lead to aggressive acts.

Gen. Ampudia made no hostile demonstration after receiving Gen. Taylor's letter, but, like the valiant Meiji before him, determined to forward Gen. Taylor's letter to his Government, and await further orders.—N. Y. Express.

Later from the Army.

The New Orleans Picayune announces the resignation of Gen. Worth.

It is well understood in the service that the cause of this step is that old source of complaint, brevet rank. But whatever may be the cause, the whole country will regret the loss of Gen. Worth. It is no disparagement to others in the service to say that in the highest qualifications of a general officer, Gen. Worth has no superior in the army.

It was ascertained that Col. Cross had been taken prisoner by a party of Mexican soldiers, consisting of a captain, lieutenant and five men, and carried off. Not the least apprehension is now entertained for the personal safety of Col. Cross, but it is not known in Gen. Taylor's camp where he is. Mexican officers positively deny that he is in Matamoras.

Correspondence of the Mobile Herald.

BRAZOS ST. JAGO, April 16.

The situation Gen. Taylor has chosen is really beautiful, though much exposed to the Mexican fortifications on the south side of the river.

Immediately after the Mexicans found that Gen. Taylor was fortifying himself they dispatched a courier to the city of Mexico, which courier was expected back on the 12th or 13th inst.

It is generally believed there will be an engagement on his arrival. I saw a gentleman who left Matamoras on the 7th.

He says that there are about six thousand troops in Matamoras, and all determined to drive Gen. T. from the frontier. They are represented as being very fine troops and well equipped.

The second day after the arrival of our troops on the river, there were two of the dragoons taken prisoners. Gen. T. demanded them to be given up with in 24 hours or he would fire on the city.

About two hours before the expiration of the time the men were sent back.—On the night of the 5th of April there were fourteen deserters from the American camp who crossed the river. The Mexicans gave them the chance of either going to jail or joining the army.

Thirteen of the number accepted the latter proposition, and one made his escape and returned to the camp. Those who have deserted are generally men who are acquainted with the Mexican language.

General T. is very strict in prohibiting settlers near his camp, or at Point Isabel, which is the depot for the landing of the supplies for the army.

There are, or were when I left, one barque, three brigs, thirteen schooners and five steam vessels at that place.—The brig Ursula was wrecked on the bar on the 5th inst.

She however got over with the loss of her mainmast, but is supposed to be so much injured that she will be condemned.

The schooner Bella del Mar is also on shore, and will be a total wreck. Many of the vessels were much injured in crossing the bar.

The Secretary of the Navy has made a contract with Capt. George W. Taylor, the American diving-bell and sea-bottom exploring man, to proceed with his powerful apparatus to Gibraltar, for the purpose of raising the steamship Missouri.

The following confirms in part what we copy elsewhere, but gives a different account of the fate of Col. Cross. Extract of a letter dated—

CAMP, (near Matamoras,) April 13. Col. Cross rode out of Camp, some four days ago, for a few hours, and has not been heard of since. Some say he is a prisoner in Matamoras. The Mexican officers say, he is not there. I think he is killed by some of the numerous bands of robbers that the country is infested with. It has thrown a gloom over the camp.

The Post Office Committee in the House will report in favor of making the same amount of postage payable on one fourth of an ounce as is now payable on a half. They will also report in favor of creating an additional rate of postage, of fifteen cents for all distances over six hundred miles, to continue during the existence of the mail contracts already made. It is as yet impossible to say what the fate of these proposed changes will be. There is a very strong force in Congress, including nearly all the members from the West and South West, who favor these changes; nevertheless the opinion of many that are generally well informed as to the strength of questions in Congress, is that they will be defeated.—Wash. Cor. of the Cour. & Enq.

GREAT LAND SALE.—The first sale of house lots in the new city of Essex, in Andover and Methuen, took place on Tuesday. A very large number of persons were present,—it is supposed that not far from two thousand. The amount of the sums bid for 22 lots on Essex street (the main street of the projected city,) 41 lots on a parallel street called Common street, and 62 lots at about three fourths of a mile from this site, in a part intended for residences, was about \$70,000. The lots on the two first named streets are of 2325 square feet each, and the prices averaged 37 1/2 cents per foot, on Essex street, and 23 cents on Common street.

On these two streets the purchasers are required to build only of brick or stone. On the other site (where the land brought from 6 1/4 to 13 1/2 cents per foot) none but dwelling houses for one family each, are to be built for twenty years. The conditions of the sale were:—one fourth of the purchase money in cash, and the remaining three fourths in three annual instalments.

Melancholy Suicide of a Mother and her Daughter.—We learn from a correspondent at Weston, that:—

On Thursday morning, 23d inst., Mrs. Bingham wife of Mr. S. H. F. Bingham of that town, and daughter of Mr. Jonas Hastings of the same place, arose very early, without the knowledge of the family, and threw herself into a mill pond very near the house. She was there found by a neighbor dead, her feet being on the shore, and there was not more than two feet of water where her head lay. Her mother, Mrs. Hastings, has labored under some depression of mind and partial derangement for several years; and she has made one or more attempts to destroy her life, requiring the utmost vigilance of the family for a long time. Notwithstanding this vigilance has been redoubled since the above fatal catastrophe, she found means to elude it and committed suicide by hanging herself to the balusters of the stairs on Tuesday the 28th inst. Both families were in easy circumstances, and no cause can be assigned, but a constitutional depression of mind which has been exhibited in fits of despondency, occasionally, during the lives of both.—Boston Atlas.

MERRIMACK BANK.—A note signed by David How, and dated in 1815, was passed in town a few days since, and appeared as fresh as when it was issued, and has no doubt been laid away for a rainy day.—People are unwise to hoard money, unless put at interest. In this case, the Bank has made money by the folly of the person who has held, and the owner has lost his interest. There are 16 \$50 bills of the Merrimack Bank, signed by Mr. How, which have never been into the Bank since they were issued, and may be in the keeping of some old miser, or they may be lost.

Haverhill Banner.

The Worcester Spy says the affairs of the Manufacturers' and Mechanics' Bank, Nantucket, have been thoroughly investigated, and the character of the Hon. Barker Burnell, its cashier, proved to be entirely free from imputation. Not only was it found that he had not used a dollar of the funds, but that he was the largest depositor at the time of the reported defalcation. Neither bill holders nor depositors will lose any thing by the bank, and it is understood it will resume its operations before long.

ROBBERY OF THE OSWEGO MAIL.—About 11 o'clock on Friday night, the wagon bringing the mail from Oswego, via the East Ridge, arrived, and instead of going to the Post Office proceeded to the Champion Hotel. The driver took the wagon, with the mail bag in it to the back yard, where he unhitched his horse. While taking his team into the stable, the mail bag was stolen from the wagon. He was absent but a very few minutes. No clue has been obtained by which the thief can be traced.

THE NEWPORT MERCURY,
Newport.
SATURDAY, MAY 2, 1846.

ELECTION.—The General Assembly of this State will meet in this town on Tuesday next, for the purpose of organizing the government for the ensuing year. As there has been no election of Governor or Lieut. Governor by the people, the choice will devolve on the Legislature.

CONGRESS.—Our Congressional dates are to Wednesday last, the proceedings of the last week are highly satisfactory as relates to the Oregon question, it will be seen that both Houses have agreed by large majorities to the recommendation of the committee of conference.

NEW YORK ELECTION.—The election for Delegates to the State Convention to amend the Constitution, resulted in the city in the success of the Democratic ticket. All the parties nominated candidates, but the number of votes polled is very small, showing the little interest taken in this election.

The whole number of Delegates to be elected in the State is 128. The returns as far as heard from, gives 45 Democrats to 33 Whigs.

VIRGINIA ELECTION.—The returns for members of the Legislature from 67 counties gives the Whigs 47 delegates and the Democrats 43. The Whigs so far, have gained 6 members, but not sufficient to give them a majority in the lower House.

OREGON QUESTION.—The New York papers contain a rumor that the Oregon controversy was already settled on the basis of the 49th parallel, and the straits of Fuca. We do not place any confidence in the rumor.

At the annual meeting of the Artillery Company at their Armory, on Tuesday evening, April 23, 1846, the following gentlemen were elected officers for the ensuing year:

- Christ. G. Perry, Col.
- Chas. D. Weedon, Lt. Col. vice Wm. H. Henderson.
- George Burroughs, Major.
- Benj. A. Mason, Captain.
- Thos. E. Townsend, Quarter Master.
- Henry E. Turner, Surgeon.
- James H. Demerest, 1st Sergeant.
- Thomas B. Carr, 2d "
- James Barton, 3d "
- R. P. Clarke, 4th "
- Chas. Clarke, Armorer.

The Inauguration of Hon. Edward Everett as President of Harvard University, took place on Thursday last with the customary ceremonies at Cambridge.

BUTTER.—The Committee of the Essex Agricultural Society, recommend as an improvement Mr. B. T. Lane's method of taking butter to market; he uses tin boxes, so constructed as to contain pound lumps in each of the apartments, with a reservoir in the centre for ice, which keeps the butter cool and hard in the hottest weather.

Mr. Webster arrived at Boston on Monday last, he was met at the depot by a great number of the citizens who gave him a most enthusiastic reception.

PASSING AND GIVING THE NOTICE.—We understand that the joint resolution of Congress, authorizing the notice to be given to Great Britain to abrogate the convention of 1827, was yesterday signed by the President of the Senate, (as it had been signed on Friday by the Speaker of the House of Representatives), and was approved and signed by the President of the United States. This resolution has thus become the law of the land, and we presume that the President, in the exercise of his "discretion" will promptly give the notice. In fact, having recommended the giving of the notice in his annual message. Congress could scarcely have doubted that he would give it, as soon as he had authority to do so. Wash. Union of Tuesday night.

DEATH BY POISON.—A child the son of Captain T. P. Williamson, residing near Clarksville, Va., was poisoned a few days since by eating locofoco matches from a box which he had got into his possession. He died in a few hours.

ARRIVAL OF CAPT. FREMONT.—We had the pleasure of conversing yesterday with an intelligent gentleman who arrived in town on Monday direct from California.

Quite the most important intelligence for which we are indebted to him relates to Capt. Fremont. That gallant and adventurous officer reached Capt. Sutter's settlement, at New Helvetia, about the 1st of February last, with a force of about sixty mounted men, as we are informed, Capt. Fremont had been so fortunate as to discover a new route, or pass, by which California can be reached by emigrants in sixty days less time than by the old route via Oregon. This new route is perfectly practicable for wheeled vehicles, and when it comes to be generally known, will give a renewed impetus to emigration to California. We have no information to enable us to point out where it strikes off from the Oregon trail, or to explain its course. Capt. Fremont left his party near Capt. Sutter's, and proceeded himself to Monterey on a visit. We have no information as to the period of his return, or the route he will pursue.

The representations made to us in regard to the state of California confirm former accounts. Allegiance to the Central Government of Mexico is almost entirely thrown off. Since the expulsion of Gov. Micholorena, the functions of chief magistrate have been discharged by Don Pio Pico, a Californian by birth, we believe, who holds his office by some indefinite but popular tenure. The famous Mexican expedition to reduce the Department to obedience has not reached California. Our informant saw a part of the troops destined for this operation as he passed through Guadalajara, about the 15th ult. It is his opinion that it is not in the power of Mexico to impose a Governor upon California; that should one be sent there, he would be almost immediately expelled. Still the Californians are distracted by dissensions among themselves, and stability under any rule or any form of government, is not to be counted upon among them.

There is a strong tide of emigration pouring in from the State by way of Oregon. Some leave this country with a view in the outset to settle there; but there is a yet greater influx of disappointed emigrants to Oregon, who wander on father south in search of better lands and happier skies.

The Coolest yet.—As one of the Roxbury Omnibuses, loaded with passengers, was coming over the Neck on Tuesday afternoon, a young man jumped in, and after deliberately collecting all the fares jumped out again. To the astonishment of the poor passengers, on arriving at the head of State street, they were informed by the driver that the gentlemanly collector had nothing to do with the concern, and that his collections were made entirely on his private account.—Boston Traveller.

The following letter from Dr. Brigham, of Lowell, Mass, but speaks the uniform language of hundreds of other Physicians, who have tried, and therefore know how to appreciate Jayne's Expectorant.

LOWELL, Mass. Jan. 27, 1844. Dr. David Jayne: Dear Sir—I have used your medicine, (so universally known by the name of JAYNE'S EXPECTORANT,) in my practice for a number of years, and can most truly say, that I have been more successful in the use of that than of any other. It does not weaken the lungs and disarrange the system, like most other Expectorants in common use, nor does it abate the appetite of the patient, like other nauseating medicines, which have been used by the faculty. In a word it is nearly or quite the thing which has been sought for by many of the faculty for ages gone by. I remain yours, &c. LUTHER BRIGHAM, M. D.

Diseases of the Skin Cured.

An interesting letter from Mrs. Sisme, for-
merly Mrs. James, of this City.

Bristol, Pa., Jan. 16, 1846.

Messrs Editors:—I write to inform you
and the public, that my son was under the
treatment of your family Doctor for more than
a year, for a very troublesome disease of the
SKIN, without obtaining any relief. I then ap-
plied to several other Physicians, who gave
him so much medicine, and dieted him so
low, that I thought he would die from its
effects. One physician told me that it was a
disease to which some families were subject,
and could not be cured. Some called it Scrofu-
la, and others Tetter, Salt Rheum, Eczema,
Lepra, &c. After trying every means for
nearly five years without effect, I was advised
to give him Dr. JAMES KIDDER'S
LIMIMENT. At this time he was literally
sore from his head to his feet. Sometimes
it would dry up and scurf off, and then
break out again as bad as ever, and rich
and burn so intolerably as to drive him
almost to distraction. He had not taken
the LIMIMENT, however, two weeks
before there was a great change for the bet-
ter. He went to school all the time while
taking the medicine, and partook of the same
kind of food as the rest of the family, and
ran about through thick and thin, the same
as the other boys of the school, until he was
perfectly cured, and became fat and hearty,
and though now over five years ago, yet not a
symptom of the disease has ever made its
appearance. He took altogether twenty-six bot-
tles of the ALTERNATIVE, and no other medicine
while using it. Yours, respectfully,
MARY ANN SISME.

If you have not time to peruse this at
present, preserve it for a leisure mo-
ment—it is of importance. In again
presenting to the Public the

Dandelion and Tomato Panacea

THE Proprietor would not claim for it
that it is a specific for ALL the diseases
to which the human frame is subject; but
does claim that in all complaints where a pu-
rifier of the blood is required that this Pan-
acea is infallible, and its powers are admitted
by all who have used it, and it has the sanc-
tion of our first Physicians.

He would ask for it only, that need of at-
tention to which the public may deem it en-
titled—and would prefer that its beneficial
results be its sole recommendation, and the
relief and health which must accrue to the
diseased and suffering from its use should pro-
claim its virtues.

For any of the following complaints, the
Dandelion and Tomato Panacea, is the best
remedy that has yet been offered, and no ar-
ticle has given such universal satisfaction for
Headache, Dizziness, Sleepiness, Loss of Ap-
petite, Indigestion, Dyspepsia, Erysipelas,
Salt Rheum, Jaundice, Scrofula, Scurvy, and
all cutaneous eruptions of the skin, Chronic
Diseases, Rheumatism, General Debility, or
any complaint that has its origin in IMPUR-
ITY OF THE BLOOD.

This Panacea is composed of all must be
aware who know anything of the *Dandelion*,
Tomato and *Sarsaparilla*, its principal ingre-
dients, form the most innocent as well as the
most effectual remedies to be found in the
vegetable kingdom; and who does not know,
that for all those diseases, in which a complete
and radical change in the composition of the
Blood, in the secretions of the Liver, and in
the formation of the solid parts of the body,
are regarded there are no remedies, that will
for a moment compare with them.

That it is purely a vegetable composition,
the public may rest assured; but should any
prove skeptical, I can show them the vouchers
of eminent Physicians to that effect, who
have examined the formula, and have tested its
virtues.

CAUTION.

The purchaser will be careful to see that
my name IS SIGNED on the wrapper of
each bottle, as there are worthless articles
put up in smaller bottles, pretended to pro-
duce the same result, but are not safe to use. Be
sure therefore and enquire for Ransom &
Stevens' Dandelion and Tomato Panacea,
which may be obtained of my duly appointed
Agents, and by all respectable Druggists,
and appointed agents in town and country,
and also by

JAMES KIDDER, Jr., Proprietor,
Druggist and Chemist, Maverick Square,
March 14.

PURIFY THE BLOOD,

The best MEDICINE Extant.

THE INDIAN VEGETABLE & SARSAPARILLA
BITTERS, for the cure of Jaundice,
Dyspepsia, Costiveness, Heart-Burn, Bilious-
ness and Liver Complaints, Indigestion, Impurities
of the Blood, and general Debility of the sys-
tem.

These inestimable Bitters were first intro-
duced to the public about two years since, and
so signal has been their success, and so highly
are they recommended by all who have used
them, that the proprietor is induced to offer
them to a generous and enlightened public on
a more extended scale, and at a price which
renders them in the power of all to possess.

Sarsaparilla has long been known as a most
efficient purifier of the blood. In these bit-
ters its virtues extracted on the most scientific
principles in a highly concentrated form, is
combined with the most useful Roots and
Herbs of the Vegetable Kingdom, in such a
manner that acting upon the Stomach and
Bowels, they produce a thorough cleansing
of the system, whereby it is speedily restored
to its wonted tone and vigor.

They may be taken with perfect safety at all
times and in all climates. Try them, and if
not satisfied the money will be refunded. To
prevent counterfeits, the inside label of each
bottle will be signed by the sole proprietor.

KIDDER'S

Valuable HORSE Liniment,

WARRANTED to be one of the most
valuable articles ever offered to
the public for sprains, windgalls, spavins,
stiffness of the joints, strains and callouses
of long standing, also for swellings, fresh
wounds, galls, &c. &c. This truly valu-
able Liniment has been extensively used
for the last 20 years, and in no instance has
it failed to give satisfaction to the pur-
chaser; it is cheaper than any other arti-
cle, as it requires but a small quantity to
complete a cure.

Also will answer equally as well for Neck
or Horn cattle. Prepared only by the In-
ventor and Proprietor,

JAMES KIDDER.

Deafness can be Cured.

COOPER'S ETHERAL OIL—A
prompt and lasting remedy for DEAF-
NESS, also for pains and discharge of ma-
ter from the Ears.

Hundreds of cures in cases deemed utterly
hopeless have firmly established its superiority
over every former Medical discovery.

This valuable Acoustic Medicine is a com-
pound of four different Oils, one of which,
the active and principal ingredient, is ob-
tained from the bark of a certain species of
Walnut, a new and effectual agent in the cure
of deafness.

Persons afflicted with deafness, no
matter of how long standing, (if not born so),
who have tried every other remedy in vain—
are requested to call upon the Agents and
procure a printed sheet containing Certificates
and other evidences of its efficacy, which it
is hoped will induce every person afflicted
with Deafness, to make a trial of this truly
valuable medicine. For sale in Newport by

WEYBOSSET HOUSE.

NO. 60 WEYBOSSET STREET.

PROVIDENCE, R. I.

THE subscriber, (formerly of the Wash-
ington Hotel) has opened the above
new and elegant establishment for a Public
House, at the corner of Centre and Wey-
bossett streets, and fitted it up in the most
modern style for the accommodation of the
public. The House is centrally situated,
being in the business part of the city,
nearly opposite the Arcade. The House
contains 70 rooms, many of which are Par-
lors, with sleeping rooms attached, for the
accommodation of families. Every atten-
tion will be paid to those who patronise
the establishment, and nothing left undone
for their accommodation. The subscriber
flatters himself that he can accommodate
his friends and the public with as good
fare, and on as reasonable terms as any
house in the city.

For the liberal patronage heretofore ex-
tended to him, he returns his thanks, and
trusts, by unremitting attention to his
business, he will continue to receive a
liberal share of the public support in fu-
ture.
